

Agenda

Climate Risk Management and Insurance Guarantee Schemes Workshop

13 June 2024, Virtual
08h00-12h45, Toronto Time

PROGRAM DESCRIPTION

This half-day workshop will highlight the importance for insurance regulators and supervisors of climate risk management by insurers, as well as the critical role insurance guarantee schemes as a safety net for policyholders and claimants.

PROGRAM OBJECTIVES

- Participants will learn about the impact of climate change and how it is driving pervasive risks across society and its economy. And, how insurers are using various methodologies, tools and expertise for effective management of climate risks.
- The workshop will provide participants with a better understanding of insurance guarantee schemes as a safety net as a potential mitigant to the impact of climate risks.
- Hence, the workshop is designed to equip insurance supervisors with necessary knowledge to help manage the adverse impacts of climate change on financial stability and inclusion.

METHODOLOGY

The program will use the hallmarks of Toronto Centre programs: leadership skills, case studies and access to experts to equip participants with the skills they need to be more effective supervisors.

WHO SHOULD ATTEND?

The workshop is targeting middle/senior level insurance policymakers, regulators, and supervisors with responsibilities for regulating or supervising insurance business, maintaining financial stability, and developing or establishing of insurance guarantee schemes.
