Leadership Program for Women Supervisors (Indo-Pacific)

September 15 – November 21, 2025

Virtual, GMT + 8

Women's Leadership Program 1: The Leader Within Agenda

PROGRAM DESCRIPTION

The 2025 Leadership Program for Women Supervisors and Regulators is designed for current and aspiring women leaders from the Indo-Pacific region seeking to develop and strengthen their leadership skills. It is targeted to women who hold managerial or executive positions in central banks and supervisory authorities.

PROGRAM OBJECTIVES

The 2025 Leadership Program for Women Supervisors and Regulators program will help women leaders (current and aspiring) to become more effective in their roles, as well as to feel more empowered and better understand that the experience, skills, and perspectives they offer are valuable to the success and effectiveness of their supervisory and regulatory agencies.

The broad program objectives are to:

- Provide women supervisors and regulators with the skills and tools to create a supportive environment for themselves; thus, contributing to enhanced confidence and performance.
- Support the development of emotional intelligence, team management, assertiveness, and self-promotion among women supervisors and regulators.
- Increase organizational awareness of the relationship between gender equality and the value of the contribution of women to organizational effectiveness and women's financial inclusion.
- Address issues of women's self-doubt and lack of confidence; thus, empowering them to provide greater leadership to their teams, colleagues, and stakeholders in the context of their supervisory and regulatory activities and reality.

PROGRAM APPROACH

Professional leadership development is a lifelong journey that requires significant attention and commitment from both individuals and their organization. Thus, the program is grounded within the context of the principles and practices of organizational development, executive education, and leadership development. Designed and facilitated by experienced leadership development experts, financial supervisory professionals, and gender specialists, the program combines three areas of focus:

- Personal development.
- Behaviours and practice.
- Role models and application to the workplace.

The program uses an experiential, adult learning methodology specifically linking the classroom to the world of women financial supervisors and regulators. It introduces participants to new leadership practices and strategies through dialogue and practical exercises, and then helps them work out the implications of the new learnings within the reality and context of their own organization. One-on-one coaching sessions will be conducted during the program.

Module 2: Day 2 - Tuesday, Oct. 28

10am – 1pm	<p>Core Webinar 5: Leadership Polarities: Bringing Our Whole Self as a Supervisor</p> <p><i>Toronto Centre Facilitation Team</i></p> <p>Most leadership role models, theories, and research are heavily gender biased toward the male perspective. This creates value propositions whereby those outside of the male experience may feel that what they have to offer may not be valued or accepted. This session will examine leadership through the polarity lens (masculine/feminine, humility/confidence, etc.) which allows women to reframe their leadership in the context of their own values and provides confidence in their strengths as well as leadership development “stretches”.</p>
